PUBLIC CLOUD CREATING AN INSTANCE IN SALESFORCE

AIM:

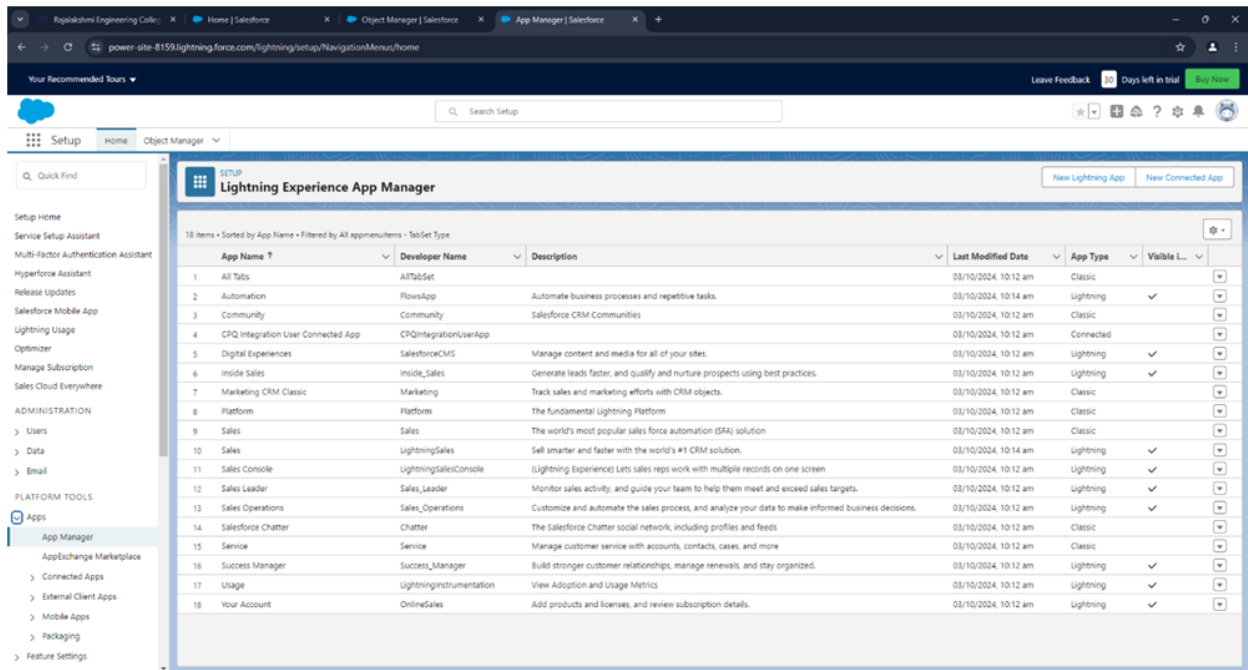

Develop a simple application to understand the concept of PAAS using Sales force

PROCEDURE:

- 1.Log in to your Salesforce account.
- 2.Click Setup at the upper-right corner.
- 3.Under the Build section, click Create and select Objects.
- 4.To create a custom object, click New Custom Object.
- 5.Enter the name of the Custom Object in Label, Plural Label, and Object Name.
- 6.Choose the custom apps for which the new Custom tab is required and click Save.
- 7.Select whether you want to define a custom app or a Salesforce console.
- 8.Give the app a name and description. An app name can have a maximum of 40 characters, including spaces. Click Save.

OUTPUT:

The screenshot displays the Salesforce Lightning Setup interface. The top navigation bar includes the Salesforce logo, a search bar, and various utility icons. The left sidebar contains a navigation menu with categories like 'Platform Tools', 'User Interface', and 'Global Actions'. The main content area is titled 'New Custom Object Tab' and shows the configuration steps for a new custom object tab. The 'Object' dropdown is set to 'Account', and the 'Tab Style' is 'Standard'. The 'Description' field is empty. The 'Next' button is visible at the bottom right.

RESULT:

Thus to develop a simple application to understand the concept of PAAS using Sales force has been executed successfully.
